## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, 18,19,21 drawn to INSECT REPELLING.

Group II, claim(s) 13, drawn to COSMETICS.

Group III, claim(s) 14, drawn to CLEANERS.

Group IV, claim(s) 15 -17, drawn to FABRIC.

Group V, claim(s) 20, drawn to COATIN COMPOSITION

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The inventions are independent & distinct & do not have any special technical features, as the instant compound is known- see MIYAMI-3507822.

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

a) SPECIES of formula of claim 1; the ULTIMATE COMPOUND OF FORMULA (I), as one of claim 4 compounds, for example.

b) SPECIES of carrier; such as the halloysite clay microtubules of claim 12.

- c) SPECIES of site of application, integument, seed , soil—
- d) SPECIES of target organism, mosquito, fly—
- e) SPECIES of host organism, fruit tree, corn, cow, human—
- f) SPECIES of cosmetic; perfume, cologne, deodorant, anti-perspirant, skin cream, soap, shampoo, hair conditioner, hair rinse, bath oil, talc, sunblock or sunscreen or cleanser, detergent, fabric softener or air freshener

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

- a) 1-22  
The following claim(s) are generic: 1-4,7-22
- b) 1-22.  
The following claim(s) are generic: 1-11,13-22

c) 1- 19, 21,22

The following claim(s) are generic: 1-7, 9-12,21-22

d) 1-10, 21,22

The following claim(s) are generic: 1-10,21-22

e) 1-7,9,10

The following claim(s) are generic: 1-7,9,10

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the compounds, host species or materials, insect pest species, carriers, & application sites are independent of each other, & have no special technical features in common.

Because the above restriction/election requirement is complex, a telephone call

to applicant's agent to request an oral election was not made. See M.P.E.P. Sec,

812.01.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to NEIL LEVY whose telephone number is 571-272-0619. The examiner can normally be reached on Tuesday-Friday, 7 AM to 5:30 PM EST..
